# UNIMAX SURGICAL TROCARS

Complete range for diverse applications

## SoftFix™ BALLOON TROCAR

### CLICK-IN DESIGN

- Obturator with click in design for secure and stable trocar insertion

### UNIVERSAL SEAL

- Universal seals in different dimensions accommodate a wide range of instrument sizes

### DETACHABLE CAP

- Detachable cannula cap for easy tissue removal

### ANCHOR GRIP WITH GEL FIXATION

- Provides atraumatic and air-tight external fixation. Allows single hand adjustment of cannula depth and the stay of sutures

### SoftFix™ BALLOON

- Latex-free balloon enhances internal stabilization and minimizes fascial trauma

## THORACIC TROCAR

- Threaded cannula enhances stability when exchanging instruments.
- Blunt tip obturator prevents damage on the internal structure.

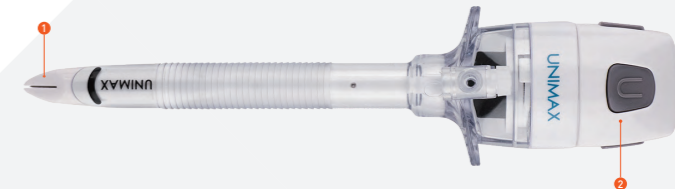

## SECONDARY TROCAR

- Sharp pyramidal tip allows easy insertion.
- Airtight valve ensures leak-free instrument exchange.

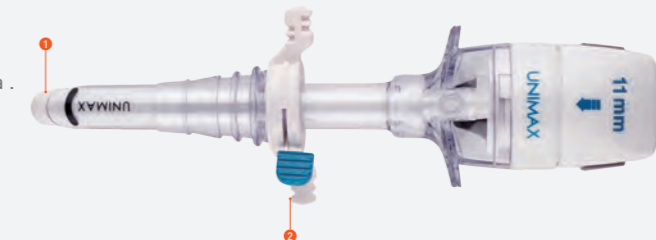

## BLADED TROCAR

- Sharp flat blade and pointed shield for easy insertion and less fascial trauma.
- Locking button for safety shield.

## HASSON TROCAR

- Blunt tip reduces the risk of damage to viscera.
- Easy-to-use anchor grip allows single hand adjustment of cannula depth as well as stay of suture.

## BLADELESS TROCAR

- Fin-design tip for better insertion.

## VISIBLE TROCAR

- Clear tip allows direct visualization of abdominal wall layers
